## OBJECTIVE

A highly motivated and detail-oriented fresher in Software Engineering with strong skills in programming, web development, and problem-solving. Eager to contribute to the development of innovative software solutions leveraging my expertise in Java, ReactJS, and UI/UX design.

## TECHNICAL SKILLS

- **Languages** : C , Java , SQL
- **Libraries / Frameworks** : ReactJS, HTML, CSS, JavaScript
- **Development Tools:** : Git, Figma, Android Studio, Unreal Engine.
- **Databases** : MySql , SQL Management Tools.
- **Key Competencies** : UI/UX design, responsive and mobile-first development, application development,

## Certifications

- **Java Full Stack Intern | BrainOvision Solutions Pvt. Ltd.** June 2024 – Aug 2024
  - Developed web applications using ReactJS and Java
  - Integrated frontend with backend systems , Assisted in database management and query optimization .
- **Android developer virtual Internship** Jan 2024 – Mar 2023
  - Learnt developing Android apps using Android Studio ,Contributed to UI/UX design and app optimization
- **Project Management** Oct 2022
  - Gained skill in the planning , implementation , completion of a project, emphasizing time management, resource allocation and teamwork.

## PROJECTS

- **Portfolio**
  - Developed a dynamic, interactive personal website using HTML, CSS, and JavaScript with engaging hover effects and responsive design to showcase skills and projects.
  - **Technologies Used:** HTML page, CSS styles sheet and a JavaScript section
- **Career Development Cell :(Team Project)**
  - Worked on designing and developing a user-friendly website for the college's career development cell using React.js. The website helps students easily access career resources, updates, and opportunities. I contributed to making the platform responsive and easy to navigate, ensuring a positive user experience.
  - **Technologies used:** React. js, HTML, CSS , Php
- **RoamAura – Travel and Tourism Website :(Mini Project)**
  - Developed a travel and tourism web app for exploring destinations and planning trips. Future updates will include user authentication and booking features. The current version offers a responsive, engaging user experience.
  - **Technologies used:** HTML, CSS, JavaScript

## RELEVANT COURSEWORK

- **Programming** : Programming Languages, Data Structures and Algorithms, UI/UX Design
- **Machine Learning** : Machine Learning, Math for Machine Learning, Visual Recognition.
- **Graphics** : Computer Graphics
- **Computer Science** : Database management Systems, Operating Systems, Software Engineering

## EDUCATION

- **Santhiram engineering college - Nandyal** Oct 2022 - Present  
B.Tech in Computer Science & Design (Lateral Entry) CGPA: 7.82/10

## ACHIEVEMENTS

- **Runner-up in ReactJS Hackathon** 01 Apr 2024 – 6 Apr 2024  
Created the frontend for the Career Development Cell website in 24 hours, improving user experience and its usability.
- **Certificate of Appreciation – Dark Patterns Buster Hackathon (DPBH – 2023)** Mar 2024  
Certificate of appreciation in the intra-college round of Dark Patterns Buster Hackathon(DPBH – 2023)
